Patient Notice: Use of AI Scribe in Documentation

Our practice uses an **AI-assisted documentation tool** to help create accurate and timely clinical notes during your visit. This tool listens to our conversation in real time and securely generates draft notes, which your provider reviews and finalizes.

- **No Recording Storage:** The audio from your visit is processed in real time and is **not saved or stored**.
- **Privacy & Security:** All information is handled in compliance with HIPAA and applicable privacy laws.
- **Human Oversight:** Your provider remains responsible for the accuracy and completeness of your medical record.
- **Purpose:** The AI scribe is used to improve efficiency, reduce administrative tasks, and allow your provider to focus more on your care.
- **Opt Out:** If you prefer this tool is not used during your visit, please share this with your provider.

This notice is provided for your information. The use of the AI scribe does not change the way your care is delivered — it simply helps us document your visit more effectively.
